

**Living Hope**  
ADOPTION AGENCY

美国生活的希望领养机构

Dear Prospective Adoptive Parent:

Thank you for inquiring about the adoption services of Living Hope Adoption Agency. Enclosed you will find some helpful information concerning our agency and the specifics involved in adopting a child from China. You can now begin one of the most satisfying experiences of your life.

Living Hope is a non-profit agency licensed by the Commonwealth of Pennsylvania and able to assist families in all fifty states. Living Hope is the result of joint-venture programs of providing schoolteachers (elementary and secondary) and medical assistance to China. After witnessing the plight of Chinese orphans and the vast number of available and needy children, our hearts were moved to provide "Living Hope" for these children. Through hard work, compassion and mutual understanding of our Chinese counterparts and the international adoption process, Living Hope Adoption Agency was born.

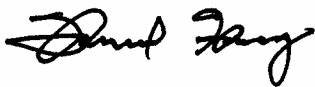

Our staff travels to China frequently throughout the year to maintain strong relationships with government officials and to ensure the quality of our services. Our goal is to provide our adopting families supportive, compassionate and professional assistance.

The average waiting time until child referral is constantly varying – please call our agency for the current time frame. Our agency will assist and guide you through each step of the adoption process including: obtaining necessary documents for Chinese government approval, obtaining a home study assessment, applying for Immigration approval, travel planning, receiving your child in China and completion of the adoption process both in China and in the U.S.

For your convenience we have enclosed Financial Assistance information that discusses grants, employer adoption benefits, and the adoption tax credit. You may even find additional resources by researching on the Internet.

We are excited about adoption and hope to be of assistance to you as you explore this wonderful opportunity to provide a loving home to a beautiful Chinese child.

Sincerely,

Samuel Fang  
President
